GovMail Alert!
Phishing Email Threat
Subject : Update

Good day,

Dear GovMail Admins,

Phishing is a fraudulent process used by spammers to acquire sensitive information from users such as usernames, passwords, and credit card details. Email recipients are often deceived by phishing attempts since messages appear to be sent by legitimate and trustworthy sources.

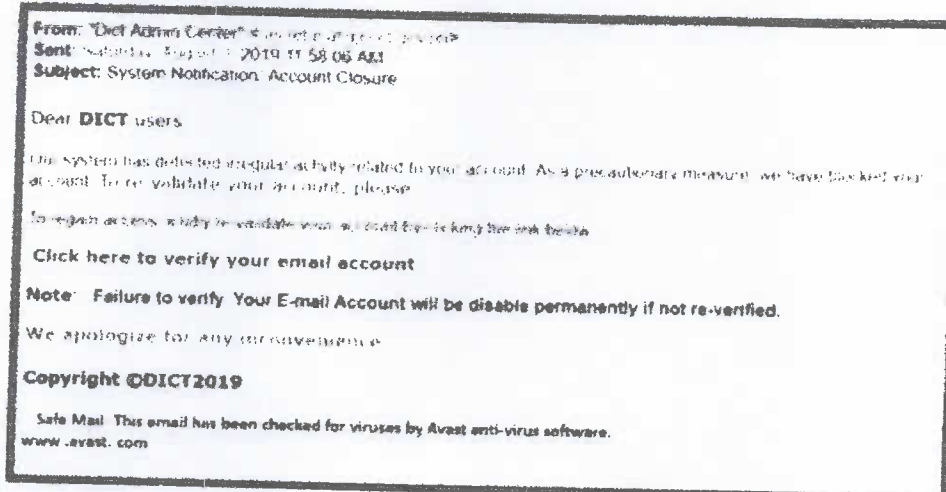

In recent days, we've learned of a new phishing attack that attempts to draw the attention of recipients with the subject line " **System Notification/ Account Closure** " while the sender may appear to be " **Dict Admin Center** " <secretariat@ncct.gov.ph && DICT ADMIN CENTER <marrodriguezq@iess.gob.ec> ".

Users are directed to a fake website and asked to enter private information. In the event that you receive a message fitting this description, close the message immediately and report it as spam.

Our email traffic is filtered by the Spam Assassin and Antivirus service, which provides you with protection against dangerous viruses and spam. However, some spam may occasionally get through to your inbox or be diverted to your Junk Folder, so please be cautious.

If you happen to receive a message that appears to be spam or phishing, close the message immediately and report it at **(02) 9200101 local 1703/6113** or email us at **govmailsupport@dict.gov.ph** .

Attached here is the screenshot of the recent phishing email.

Very truly yours,

GovMail Team
